CAREER OBJECTIVE

Cybersecurity professional specializing in Vulnerability Assessment and Penetration Testing (VAPT), web application security, and network security, with hands-on experience across Linux and Windows environments identifying vulnerabilities aligned with OWASP Top 10. Proficient with Burp Suite, Nessus, Nmap, Wireshark, SQLMap, and Metasploit; skilled in security automation with Python and committed to ethical hacking and continuous improvement.

TECHNICAL SKILLS

Cybersecurity: VAPT, Web Application Security, OWASP Top 10, Bug Bounty Basics

Security Tools: Burp Suite, OWASP ZAP, Acunetix Premium, Nessus, Metasploit, Nmap, Wireshark, Hydra

Recon & OSINT: Subfinder, Subzy, Maltego, theHarvester, SpiderFoot, Recon-ng, Shodan, Gobuster

Networking: TCP/IP, DNS, HTTP/HTTPS, Ports & Protocols, Routing & Switching, VLANs, OSPF (CCNA-level)

Programming: Python, C, C++, MySQL, Data Structures

OS & Hardening: Windows, Kali Linux — Windows & Linux Hardening

Ethical Hacking: Reconnaissance, Enumeration, Vulnerability Assessment (CEH topics)

Digital Forensics: Digital Evidence & File System Analysis, Log Analysis, Memory Forensics, Autopsy, FTK Imager

API Security: REST API Testing, Authentication & Authorization, Burp Suite, Postman, OWASP API Top 10

EXPERIENCE

Cybersecurity Intern — Cryptus Cyber Security Pvt. Ltd., Delhi | Dec 2025 – Present

- Assisted in Vulnerability Assessment and Penetration Testing (VAPT) on live web applications.
- Performed reconnaissance, scanning, and vulnerability identification using Subfinder and Subzy for subdomain enumeration and takeover checks.
- Used Burp Suite, OWASP ZAP, Acunetix Premium, Nessus, Nmap, and Wireshark for security testing; identified XSS, SQL Injection, and server misconfigurations.
- Prepared vulnerability reports and proof-of-concept (POC) documentation for findings.

Frontend Developer Intern — Merit (Moaisus) | Dec 2023 – Jul 2024

- Developed responsive web applications using HTML, CSS, and JavaScript; worked with React for UI development, improving user experience through optimized design and performance.

PROJECTS

Cloud Security Posture Management (CSPM) — Python, AWS IAM, Boto3

- Developing a Python-based CSPM solution integrated with AWS, using Boto3 for secure authentication and automated cloud security auditing and misconfiguration detection.

Keylogging Project — Python

- Developed a Python-based keylogger in a controlled lab environment to study keystroke monitoring and endpoint security concepts.

DoH C2 Project — DNS over HTTPS

- Built a proof-of-concept DNS-over-HTTPS (DoH) communication project to study encrypted traffic behavior and covert channel techniques.

CERTIFICATIONS & TRAINING

- 6-Month Diploma in Cyber Security and Ethical Hacking — Cryptus Cyber Security Pvt. Ltd.
- Cryptus Certified Ethical Hacker (CCEH); Web Application Penetration Tester (WAPT) — Cryptus Cyber Security Pvt. Ltd.
- Cryptus Certified Network Administrator (CCNA); Cryptus Certified API Testing — Cryptus Cyber Security Pvt. Ltd.
- Cryptus Certified Forensics Investigator (CCFI) — Cryptus Cyber Security Pvt. Ltd.
- State-Level Qualification — Skill Digital India 2025-26 (Cybersecurity).

EDUCATION

Bachelor of Vocational Studies in Cyber Security — Guru Nanak College, Budhlada, Mansa (Punjab), 2026

12th (Senior Secondary) — J.N.V., Mansa (Punjab), 2023

10th (Secondary) — J.N.V., Mansa (Punjab), 2021
